<b>1</b>	<b>Algebra</b>	<b>1</b>
1.1	Algebra practice set 1 . . . . .	1
1.2	Polynomials and their roots . . . . .	2
1.3	The first look at the AM-GM inequality . . . . .	4
1.4	Algebra practice set 2 . . . . .	5
1.5	Computations with symmetric polynomials . . . . .	6
1.6	A touch on weighted AM-GM . . . . .	7
1.7	Algebra practice set 3 . . . . .	8
1.8	Introduction to functional properties (part 1) . . . . .	9
1.9	The first look at the Cauchy-Schwarz inequality (part 1) . . . . .	11
1.10	A quick look at the circle of Apollonius . . . . .	12
1.11	Algebra practice set 4 . . . . .	13
1.12	Introduction to functional properties (part 2) . . . . .	14
1.13	The first look at the Cauchy-Schwarz inequality (part 2) . . . . .	15
1.14	Algebra practice set 5 . . . . .	16
1.15	Basic properties of polynomials . . . . .	17
1.16	Inequality practice set 1 . . . . .	18
1.17	Algebra practice set 6 . . . . .	19
1.18	Introduction to functional properties (part 3) . . . . .	20
1.19	Inequality practice set 2 . . . . .	21
1.20	Integer roots of quadratic equations . . . . .	22
<b>2</b>	<b>Combinatorics</b>	<b>23</b>
2.1	Challenges in enumerative counting (part 1) . . . . .	23
2.2	Brain teasers and mathematical reasoning (part 1) . . . . .	24
2.3	Mathematical arguments – The first tour of the Pigeonhole principle . . . . .	25
2.4	Challenges in enumerative counting (part 2) . . . . .	26
2.5	Brain teasers and mathematical reasoning (part 2) . . . . .	27
2.6	Mathematical arguments – Proof by contradiction . . . . .	28
2.7	Challenges in enumerative counting (part 3) . . . . .	29
2.8	Brain teasers and mathematical reasoning (part 3) . . . . .	30
2.9	Mathematical arguments – The first tour of mathematical induction . . . . .	31

---

2.10	Mathematical arguments – The second tour of the Pigeonhole principle . . . . .	32
2.11	Challenges in enumerative counting (part 4) . . . . .	34
2.12	Brain teasers and mathematical reasoning (part 4) . . . . .	35
2.13	Mathematical arguments – The second tour of mathematical induction . . . . .	36
2.14	Challenges in enumerative counting (part 5) . . . . .	37
2.15	Brain teasers and mathematical reasoning (part 5) . . . . .	38
2.16	Mathematical arguments – Proof by contradiction and Pigeonhole principle . . . . .	39
2.17	Challenges in enumerative counting (part 6) . . . . .	40
2.18	Brain teasers and mathematical reasoning (part 6) . . . . .	41
2.19	Mathematical arguments – Parity argument . . . . .	42
2.20	Mathematical arguments – Coloring . . . . .	43
2.21	Challenges in enumerative counting (part 7) . . . . .	44
2.22	Brain teasers and mathematical reasoning (part 7) . . . . .	45
2.23	Mathematical arguments – The well ordering principle . . . . .	46
2.24	Challenges in enumerative counting (part 8) . . . . .	47
2.25	Brain teasers and mathematical reasoning (part 8) . . . . .	48
<b>3</b>	<b>More topics in Combinatorics</b>	<b>49</b>
3.1	Mathematical arguments – Coloring and assigning weights (part 1) . . . . .	49
3.2	Mathematical arguments – Coloring and assigning weights (part 2) . . . . .	51
3.3	Math reasoning gems from AMC10A/12A 2016 . . . . .	52
3.4	Math reasoning gems from AMC10B/12B 2016 . . . . .	53
3.5	Math reasoning gems from AIME 2016 . . . . .	54
<b>4</b>	<b>Practice tests</b>	<b>55</b>
4.1	Advanced level problems from EMC <sup>2</sup> 2010 (part 1) . . . . .	55
4.2	Advanced level problems from EMC <sup>2</sup> 2011 (part 1) . . . . .	57
4.3	Advanced level problems from EMC <sup>2</sup> 2010 (part 2) . . . . .	58
4.4	Advanced level problems from EMC <sup>2</sup> 2011 (part 2) . . . . .	59
4.5	Advanced level problems from EMC <sup>2</sup> 2010 and 2011 . . . . .	61
