1	Algebra	1
1.1	Really challenging systems equations	1
1.2	Algebra 7.1	3
1.3	Algebra 7.2	4
1.4	Challenges with sequences, series, and products	5
1.5	Algebra 7.3	7
1.6	Algebra 7.4	8
2	Combinatorics	11
2.1	Advanced techniques in counting – Bijection or recursion or both	11
2.1.1	Bijection or recursion or both?	11
2.1.2	Advanced counting practices (part 3)	12
2.2	Advanced techniques in counting – Comparing different approaches	14
2.2.1	Comparing different approaches	14
2.2.2	Advanced counting practices (part 4)	14
2.3	Advanced techniques in counting – more on Catalan numbers and Dyck paths	16
2.3.1	Advanced counting practices (part 5)	16
2.3.2	more on Catalan numbers and Dyck paths	16
2.4	Advanced techniques in counting – The fourth tour of generating functions	18
2.4.1	Advanced counting practices (part 6)	18
2.4.2	The fourth tour of generating functions	18
2.5	Advanced techniques in counting – The fifth tour of generating functions	20
2.5.1	Advanced counting practices (part 7)	20
2.5.2	The fifth tour of generating functions	20
2.6	Advanced techniques in counting – The sixth tour of generating functions	22
2.6.1	Advanced counting practices (part 8)	22
2.6.2	The sixth tour of generating functions	23
2.7	Advanced techniques in counting – generating functions, complex numbers, polygons, and sets	24
2.7.1	Geometry examples	24
2.7.2	Algebra examples	24

3	Geometry	27
3.1	Complex numbers, equiangular and regular polygons	27
3.2	Challenges in geometric computations	29
