|   |           |
|---|-----------|
| <b>Algebra</b>  | <b>1</b>  |
| 1.1 Special techniques in factoring (part 2)  | 1         |
| 1.1.1 Divisibilities (part 2)   | 1         |
| 1.1.2 Symmetric polynomials (part 2)  | 1         |
| 1.2 Rearrangement inequality  | 3         |
| 1.2.1 Rearrangement inequality  | 3         |
| 1.2.2 A bit more touch on weights   | 3         |
| 1.3 Inequalities with AM-GM and Cauchy-Schwartz   | 5         |
| <b>2 Geometry</b>   | <b>7</b>  |
| 2.1 Angle chasing and cyclic quadrilaterals (part 1)  | 7         |
| 2.1.1 Angle chasing and cyclic quadrilaterals (part 1)  | 7         |
| 2.1.2 Selected entry level Olympiad geometry problems (part 1)                                  | 8         |
| 2.2 Angle chasing and cyclic quadrilaterals (part 2)  | 10        |
| 2.2.1 Angle chasing and cyclic quadrilaterals (part 2)  | 10        |
| 2.2.2 Selected entry level Olympiad geometry problems (part 2)                                  | 11        |
| <b>3 Number Theory</b>  | <b>13</b> |
| 3.1 Prime, irreducible, greatest common divisors (G.C.D.) and least common multiples (L.C.M.)   | 13        |
| 3.1.1 Prime, irreducible, greatest common divisors (G.C.D.) and least common multiples (L.C.M.) | 13        |
| 3.1.2 More on number sense  | 15        |
| 3.2 The Euclidean Algorithm, Bezout's identity and the Fundamental theorem of arithmetic        | 16        |
| 3.3 Euler's totient function  | 18        |
| 3.3.1 Euler's totient function  | 18        |
| 3.3.2 Mixed exercises   | 19        |
| 3.4 G.C.D., L.C.M., and prime factorization   | 20        |
| 3.4.1 G.C.D., L.C.M., and prime factorization   | 20        |
| 3.4.2 Mixed proof exercises   | 21        |
| 3.5 Residue Classes, inverse, and Wilson's theorem  | 22        |

|          |  |           |
|----------|--|-----------|
| 3.5.1    | Residue Classes . . . . .                                    | 22        |
| 3.5.2    | Inverse in modulo arithmetics and Wilson's theorem . . . . . | 23        |
| 3.6      | Modular Arithmetics (part 3) . . . . .                       | 25        |
| 3.7      | Euler and Fermat . . . . .                                   | 27        |
| 3.7.1    | Euler and Fermat . . . . .                                   | 27        |
| 3.7.2    | Mixed proof exercises . . . . .                              | 28        |
| 3.8      | Order . . . . .  | 29        |
| 3.9      | Entry level proofs in modular arithmetics (part 1) . . . . . | 31        |
| 3.10     | Entry level proofs in modular arithmetics (part 2) . . . . . | 33        |
| <b>4</b> | <b>Practice tests</b>  | <b>35</b> |
| 4.1      | RP2M2 practice test 1 . . . . .                              | 35        |
| 4.2      | RP2M2 practice test 2 . . . . .                              | 36        |
| 4.3      | RP2M2 practice test 3 . . . . .                              | 37        |
| 4.4      | RP2M2 practice test 4 . . . . .                              | 38        |
| 4.5      | RP2M2 practice test 5 . . . . .                              | 39        |
